

Shaker Unveiling

Olympic Rings

**Five continents: Africa, America,
Asia, Europe, & Oceania**

- **Olympic rings = five interlocking rings, colored blue, yellow, black, green, and red on a white field**
- **The symbol was originally created in 1913 by Coubertin**
- **Union of the five continents and the meeting of athletes**
- **The colors of the rings, along with the white background, represented the colors of every competing country's flag at the time**
- **In 1914, the world Congress was suspended due to WWI, but the symbol and flag were later adopted**
- **Officially debuted at the 1920 Summer Olympics in Antwerp, Belgium**

Olympic Torch

- **The modern tradition of moving the Olympic flame via a relay system from Greece to the Olympic venue began with the Berlin Games in 1936**
- **Before the Games are held, the Olympic flame is lit on a torch, with the rays of the Sun concentrated by a parabolic reflector, at the site of the Ancient Olympics in Olympia, Greece**

Olympic Torch

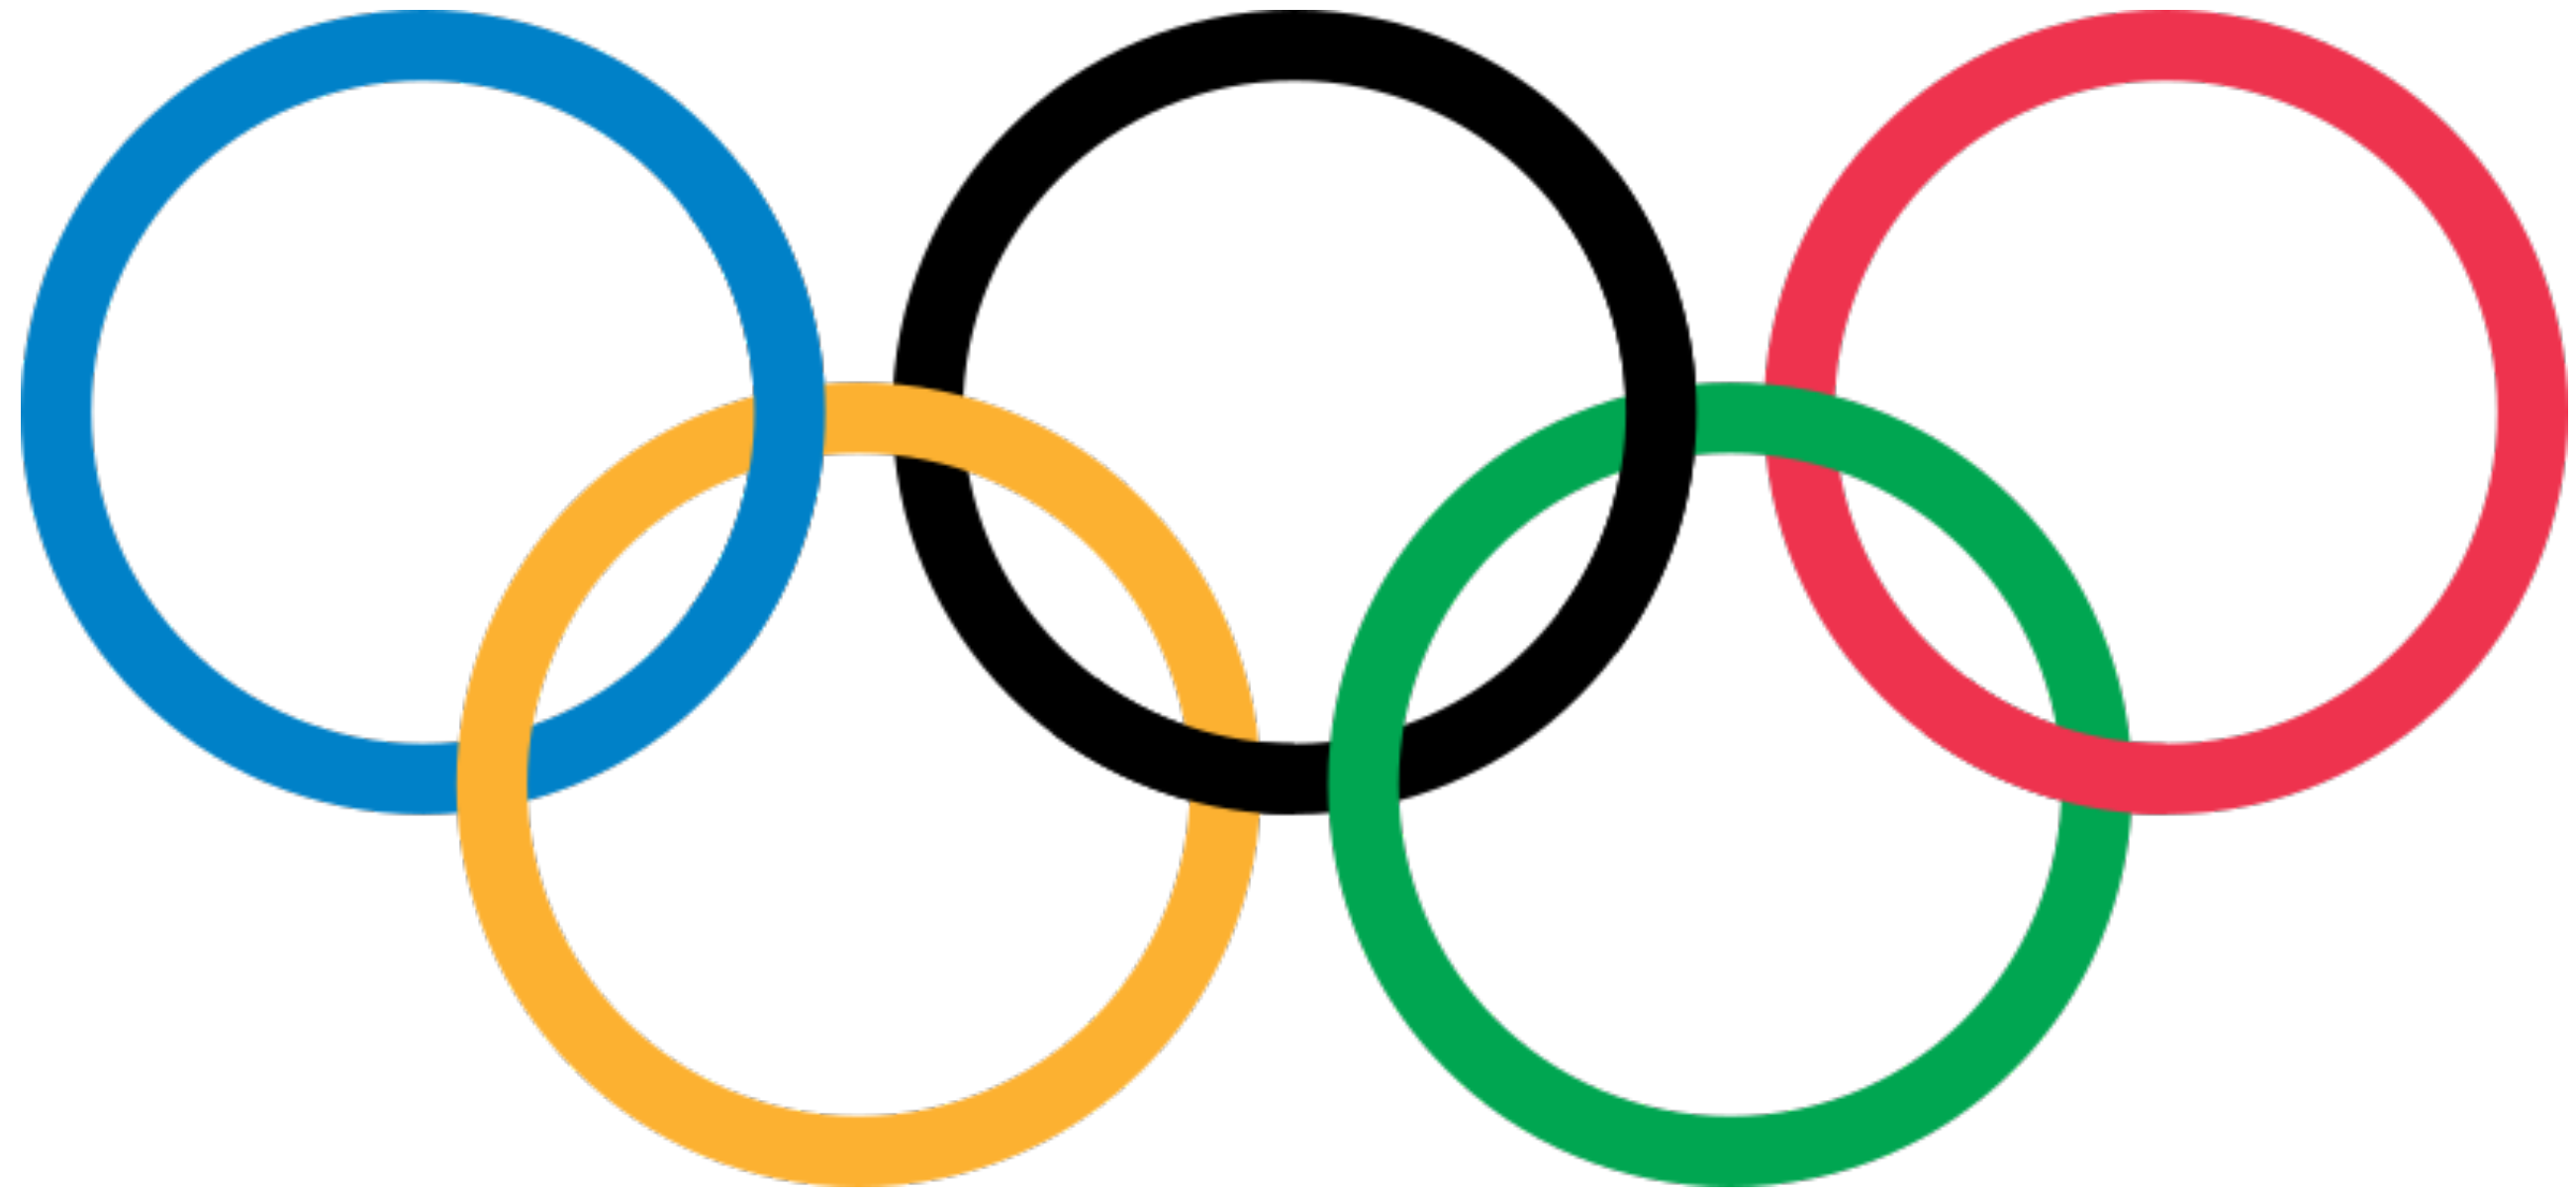

- **The torch is then taken out of Greece, most often to be taken around the country or continent where the Games are held.**
- **Carried by athletes, leaders, celebrities, and ordinary people alike**
- **Final day at Opening Ceremony, the Flame reaches the main stadium and is used to light a cauldron situated in a prominent part of the venue to signify the beginning of the Games**

**Insert photos of relay & lighting cauldron
here**
